📄 SUMMARY

I am a Full Stack Web Developer with experience in building responsive and dynamic web applications using modern technologies. Skilled in both front-end and back-end development, I focus on writing clean, efficient code and delivering user-friendly digital solutions. I am continuously improving my skills and staying updated with current web technologies.

🎓 EDUCATION

Information Technology

University of Bahirdar

04/2024 – 06/2026

Bahirdar , Ethiopia

I am a 3rd-year Information Technology student at the University of Bahirdar. I am actively pursuing my personal journey in full-stack web development. I am continuously learning and building my skills in both front-end and back-end technologies, with a strong focus on becoming a proficient and industry-ready full-stack developer.

MongoDB

CRUD operations, Mongoose ,and Backend Integration

Mysql

Relational DB Management,Queries, and Normalization

📁 PROJECTS

Food Delivery [🔗](#)

Mern Stack Food Delivery app with many features

04/2026 – 04/2026

I built a full-stack food delivery web app where users can easily browse menus, add items to their cart, and place orders with secure online payments. It also includes an admin dashboard to manage orders, users, and menu items.

Portfolio [🔗](#)

The place where my works available

04/2026 – 04/2026

A modern and responsive portfolio website built using React and Tailwind CSS to showcase my projects, skills, and experience. The application focuses on clean design, smooth user experience, and mobile-friendly layouts.
